

## **Soluis & Innovate UK Immersive Tech Awards 2024**

Soluis is a group of artists and technologists creating accessible, immersive, and engaging experiences for the AEC industry.

Our goal is to create seamless and effortless understanding across some of the world's largest and most ambitious real estate projects, by enabling immersive stakeholder engagement. With our clients we push the boundaries of immersion, by transporting their stakeholders to places and worlds that are often yet to be built.

### Internship details

- A 3-month internship with Soluis
- Matched to the team that suits your skillset
- Hired on a 3-month temporary contract
- Flexible in terms of start date

What you can expect/ key outcomes:

- Work on ground-breaking projects for global clients in architecture, engineering and construction
- Working with cutting-edge technologies and gaining access to world-leading partnership teams
- Fully supported with coaching and training from the Soluis team
- Work from anywhere with our flexible working policy

With over 20 years of experience, Soluis strong ties with industry partners, institutions & governmental organisations.

Our relationships with technology partners such as Epic Games, Meta, Magic Leap, Autodesk, Bentley Systems, Unity Technologies, gives unparalleled access to experts, training and tools that are not widely available.
